NUMBER 13.

THE BULLET'S WORK.

The Dead Bodies of Two Gamblers Are Found on the Street.

A Son Shoots His Father, While the Latter is Attempting to Murder His Wife.

Two Brothers Are Killed While They Are Attempting to Take the Life of Their Enemy.

A Long List of Horrible and Revolting Crimes Committed in Different Parts of the United States.

Dead Bodies Found.

ST. JOSEPH, Mo., Nov. 14.—The dead bodies of two men, Jos. Hughes and Mark Davis, were found on the south side of Sixth street this morning, they having been shot, Davis in the left side, near the heart, and Hughes in the left eye and neck. At an inquest this morning it was shown that Hughes and Davis were gambling in a saloon, and that they won some \$75 from two strangers named Reed and Shark, who jointly demanded the return of the money, which was refused. A quarrel ensued, but the difficulty was settled and the parties apparently friendly left the saloon together. It is supposed that after getting on the street the quarrel was resumed and that the strangers shot Hughes and Davis in order to recover the money they had lost. Davis leaves a wife and several children. Hughes is a single man. No arrests have been made as yet.

A Fatal Shooting.

KANSAS CITY, Mo., Nov. 14.—A fatal shooting occurred in the suburbs of Wyandotte late this afternoon. A colored man, named Johns, quarrelled with his wife, and procuring a spade, entered his house with the intention of killing her. His step-son intervened, but Johns persisted in his intention, and the young man fearing for his mother's life, drew a revolver and shot the father fatally.

Double Tragedy.

LITTLE ROCK, Nov. 14.—News have been received here of a double tragedy on the Red river, a few miles from Texarkana on Saturday. Chas. Henry, Jr., a merchant at Lost Prairie, after a quarrel with two brothers named Butler, started home. The Butlers followed him to a cabin where he had taken refuge, and kicking the door down entered. Henry fired a double barrel shot gun and killed both brothers, as they crossed the threshold. He was wounded in the arm by a ball fired by a man who came with the assailants.

Railroad Accident.

KANSAS CITY, Mo., Nov. 14.—News has been received of a disastrous wreck which occurred on the Alton road at 6:30 this afternoon, near Oak Grove, 20 miles east of here. As a construction train was backing up from Grain Valley to Oak Grove, it collided with a hand car on which were four men. The men on the hand car jumped and escaped, but the construction train of five or six cars and a caboose was derailed, and a brakeman named Corcoran and five section men were killed, and eight or ten others wounded. The road is blocked, and passenger trains will not be able to get through before morning. Further particulars cannot be learned.

Terrible Accident.

CLEVELAND Ohio Nov. 14.—A strange accident happened this afternoon on Seneca and St. Clair streets, where a large block is in process of erection. A boom derick 100 feet high, used for materials, through breaking, the derick toppled about twenty feet from the ground and fell with a crash. Three men were on the platform, sixty feet from the sidewalk hoisting a load of about three tons of brick, one jumped and caught the lower guy, and slid to the ground the other two were so injured that they died soon afterwards. One had his back broken and the other was horribly mangled.

Counterfeit Dollars.

WASHINGTON, D. C., Nov. 14.—Chief Brooks, secret service, of the treasury department, has received some of the counterfeit Bland silver dollars, which are being extensively circulated, especially through the west. The coin is very heavily plated, and tests have to be deeply cut before being applied; it has a ring similar to the genuine. The officers of the department consider the counterfeit one of most dangerous that has yet appeared.

Indian Agent Indicted.

NEW YORK, Nov. 14.—Ex-Indian agent J. C. Tiffany has been indicted in Arizona, for the embezzlement of money and government property, aggregating about \$15,000 and is to appear at the opening of the United States district court in Tucson, on the first Monday in February, to plead to the indictment. J. H. Carroll became his bondsman.

Foisted.

LONDONVILLE, Ont., Nov. 14.—At Salina, last night, William Trimble and his two daughters partook of what they supposed to be a tea herb, to relieve a cold. They were all taken sick from its effects. Trimble and one daughter died to-day, and the other daughter is not expected to recover.

A Railroad War.

STRAUS, N. Y., Nov. 14.—There is considerable excitement here regarding the crossing of the New York West Shore and Buffalo and the Syracuse, Chicago and New York railroads, and the adjacent property. The West Shore company has been attempting to secure some property in the Fourth ward, which J. J. Beloid, as receiver

POLITICAL LIFE.

Luna to Be Deprived of an Honest Election by Santa Fe County.

What the Democrats Have Done and What the Court is Expected to Do With Them.

Rumors of Contemplated Changes to be Made in the Cabinet of President Arthur.

The Troy, New York, Board of Aldermen Attempt to Organize, but Find Many Difficulties in Their Way.

Santa Fe County.

SANTA FE, N. M., Nov. 14.—The recent election in Santa Fe county resulted in the return of the whole Republican ticket, excepting Martinez, a Democrat, and the present incumbent of the office, he being re-elected sheriff. The result of the contest caused great excitement here, as the county had always gone Democratic. The Democrats had the arrangements all their own way, the three commissioners, who administer the affairs of the county belong to that party, and they appointed Democratic judges and clerks at the polls.

The official return, has to be made by the three commissioners, and to-day was appointed for that purpose, when to the astonishment of the citizens, the commissioners threw out the returns of five precincts, where there were large Republican majorities and declared the whole Democratic ticket elected. This at first caused great consternation, in the city, which has since been in a state of excitement. Matters have now cooled down, as it is found that the commissioners have no legal right to go back of the returns, their duty being simply to count the vote, recorded, and make their return to that effect.

Sol Spiegelberg, the chairman of the commissioners, refused to reconsider the matter and declares the Democratic ticket elected; a writ of mandamus will be applied for, in the morning, to Chief Justice Axtell, to compel the commissioners to make the proper legal returns, which they declare they will not do.

Spiegelberg has been trying to be a small boss in this city, and was much enraged at the transfer of power from himself and his party. A strong fight is expected over the matter to-morrow, which may lead to some trouble, as the party feeling runs high.

T. B. Catron went this evening to see the poll books, to be able to detect any tampering that may be done with them, but was refused permission to look at them.

Can it be Possible.

WASHINGTON, Nov. 14.—The supposed pending Cabinet changes are being handled about with a recklessness usually only born of a new administration. Folger is to resign, the opinion goes; New threatens to resign unless there is a positive opening for Folger's place, and Bob Lincoln is to be moved up higher and put in training for the presidency as the Stalwart candidate; Howe is to step down and out to accommodate another member of the Cabinet, who is dissatisfied; and Hutton is to be put in New's place in the treasury. There are half a dozen other alleged impending changes in the personnel of the Arthur administration, most all of which are based upon some incomprehensible reasoning. There is but one general idea prevailing just now, and that is that in some way the recent elections have materially changed the views and plans of members of the Cabinet, as well as those of President Arthur, and that in consequence there is to be a general shaking up. It was telegraphed last night that Assistant Secretary New had resigned, but there are no tangible evidences of resignation to-day. The fact that New is altogether likely to resign in a short time is probably the parent of the rumor. When New came into the treasury it is believed to have been with the understanding that the secretaryship should be his with the first opportunity. When Folger was nominated for governor of New York, New saw this opportunity opening up for the realization of his ambition. Had Folger resigned it is confidently believed by New's friends that the assistant would have become the chief secretary. Now, however, things have changed. Folger has been defeated and must move out shortly, it is true, but New is in the same boat, and the possibility of the portfolio of the treasury is no longer his. Had New's powerful Journal and political influence been able to hold the Indiana Republicans up by the tail New's official fortunes would have been assured. As it is, the causes which make Folger an incumbent leave New ineligible as successor. This is why Mr. New's resignation is expected to precede Folger's. There are known to be a good many aspirants for the department of finance, and it will not be difficult for the president to select one out of the number who has never been beaten in his own State by 200,000 majority.

City Fathers.

TROY N. Y., Nov. 14.—Great excitement exists over the organization of the Board of Aldermen. The Republicans and Independents, have thirteen members, and the Democrats twelve. Later at a meeting of the old board, they seated a candidate who claimed to be elected to a full vacancy thus trying the board. Mayor Fitzgerald suspended the city clerk and appointed a clerk pro-tem, and the Democrats left the room, when the roll was being called to organize a new board. The clerk pro-tem, then re-

cognized the claims of ex-alderman Morrissey an Independent, as holding over, and the board proceeded to organize without the Democrats. The court has been appealed to, to settle the matter.

Bottlers in Session.

PITTSBURG, Pa., Nov. 14.—The first international exhibition of bottlers is in session in Turner hall, this city, to-day. Bottlers are here from all points in the United States and England. Tomorrow they will meet in convention, and discuss matters that are expected to benefit the trade in this country and Europe. A permanent organization will be effected.

The Yellow Jack.

GALVESTON, Nov. 14.—The News, Austin special says: The governor modifies the quarantine proclamation, regarding Star county, as the official reports are that the cold weather is not severe enough to destroy the germ of yellow fever at Brownsville, and the fever still rages.

Garfield's Memory.

NEW YORK, Nov. 14.—The committee of the Garfield Monument association have issued an address to the people of New York State, soliciting assistance, also for a national equestrian monument at Washington.

Death of a Broker.

NEW YORK, Nov. 14.—George A. Osgood, a stock broker, and son-in-law of the late Commodore Vanderbilt died to-day. He was over sixty years of age.

THE FAR EAST.

Oriental Items.

SAN FRANCISCO, Nov. 14.—The Occidental and Oriental company's steamship Coptic, just arrived, brought Hongkong advices to October 17th and Yokohama dates to October 21st.

The rice crop at Fouchow is reported more abundant this year than it has been for several years past.

During the M. A. examination held recently at Peking, three of the competitors, in despair at finding that they were unable to write an essay upon the subject that had been placed before them, made most determined attempts at suicide. One cut his throat, the other two actually tried to commit harikari.

The crops in Peking are reported as flourishing. No more rain is needed, and all that is required for a fine wheat harvest next year is a light snow and a rain or two in April.

General Wu, the commander-in-chief of the Chinese troops in Corea, has not yet returned from Tientsin, where he is awaiting for orders from Li Hung Chang.

Commander Lung's appointment as chief of the Chinese admiralty, has been confirmed by Li Hung Chang.

A good deal of excitement was created among the Chinese in Hongkong on the day the last mail left by the rumored stoppage of the Chartered Mercantile bank, and the bank officials were put to some little inconvenience by the run which was made.

The Chinese look upon the comet, which has been seen distinctly here for some time, as an omen of rebellion and war.

Several cases of mild cholera have occurred in Canton. The new viceroys, who was ruling in the famine districts some five or six years ago, is being blamed as the cause of the long continued drought.

Japan has been visited by another heavy gale, accompanied by deluges of rain. Reports of damages caused by floods reach us from various parts of the country, and it is feared that the rice crop has suffered more or less. We do not, however, apprehend any serious loss. The crop is still believed to be above the average.

The much talked of 'Bank of Japan' has been opened, but the foreign public still remains in ignorance of its real purpose and scope. So far as we can judge, its most useful function will be to assist the government's fiscal operations, and by undertaking to finance the taxes, relieve the money market of the abnormal pressure to which it is sometimes subjected at present.

The cholera epidemic seems to be drawing to a close, but the returns for Tokyo Fu contrast very unfavorably with those of 1879. Up to the 10th ult., the total number of cases in that prefecture was 6,499, according to the report of the sanitary bureau, whereas in 1879 the corresponding number up to the 30th of September was 2,053.

A fatal accident occurred at Cavite on the 23d of September. While fumigating the cholera hospital at La Carlidad, with gunpowder, an explosion took place, whereby one man died and another was badly hurt.

The two murderers of the Promotor Fiscal of Laguna, who had been sentenced to death at the scene of their horrible crime to serve as an example to their fellow-countrymen, were executed on the 2d of October.

A sum of \$8000 has been voted for defraying the expenses of buying rail-trailers and other pieces of furniture in London for the Philippine service.

FOREIGN.

BERLIN, Nov. 14.—The government has begun to take decisive action against the proprietors and managers of lottery schemes and transactions. Two thousand persons were indicted on the charge of dealing in forbidden foreign lotteries. It is anticipated that further indictments will follow, and that there will be revelations that will produce a sensation in this country.

LONDON, Nov. 14.—Bradlaugh went to Commons this afternoon to try and take his seat. He had a brief personal consultation with the Speaker of the House, and was informed by him that the order of expulsion was still in force. He then withdrew without making an effort towards securing his seat.

Lodon, Nov. 14.—The steamer Angelica, plying between Gifla and Hettel, has foundered in the North Sea, and forty persons were drowned.

ROME, Nov. 13.—Chevalier Nigra was appointed ambassador to England to-day.

CLOTHING HOUSE.

Everyday we hear exclaimations of surprise from persons visiting our house for the first time, who heretofore have been unable to buy ready-made garments to fit them. The ease and facility with which they make their selections and the

we show them, is a revelation to all who have not heard of our fame as Clothiers. Our stock comprises everything, which is used by man, in the way of Clothing, and we can fit you out from the bottom of your feet to the top of your head, in
